The nomadic light that goes with you. Its light creates an intimate and warm atmosphere.

The shape evokes a nostalgia for the past, but its production using injected ABS gives it the necessary lightness and imbues it with modernity.

It is a cordless, portable and rechargeable table lamp that allows you to adjust the lighting in four levels, ideal

for indirectly lighting both the interiors of restaurants and terraces and in the home—it is ideal for spaces that do not have access to a socket. Its autonomy and small format allows you to take it from one place to another with total ease—it is a nomadic light that goes with you.
