The Glint Desk Lamp is a functional and visually interesting luminaire that features a unique and resourceful expression. This lamp consists of a cork made structure with two magnets attached that in alliance with the metal piece results in an unrestricted and adjustable composition. Take part in the design of this piece that comes in two different shapes and four different colour options for the textile cord. Show off decorative accessories or a book and create a welcoming atmosphere in your reading nook or a focal point in your office. This lamp makes a great complement to any interior.
