## Product Features

### **Product Type**

Stool or a Side table

### **Environment**

Interior

**Like the rest of the Ím-par series, Três gives you a bold geometrical component while prioritizing usage and multifunctionality. With a versatile expression, depending on your perspective, Três can be used as a stool or as a table. With six different colour options for the steel legs and a tabletop available in both expanded and light cork, the charming character of this furniture piece is highlighted even when it's upside down. Thanks to the softness and durable properties of cork, Três is an extremely practical and cosy solution for your space.**
