## ALUMINUM MOSAIC

**The product may be susceptible to scratching in handling and installation, as well as use. Expect variation of color run from production to production.**

### *Installation*

Only use adhesives with high adhesion and elasticity such as Mapei Planicrete W or Kerapoxy. Make sure to get complete coverage. All substrates should be properly reinforced to ensure there is no movement. For mortar installations, the mortar bed has to be cured (less than 2% humidity) and has to have proper reinforcing. Please refer to the TCNA HANDBOOK for more specific information regarding installation of aluminum tiles.

### *Adhesives & Grouting*

Any type of cement based adhesive & grout is suitable.

### *Maintenance*

Use a non-abrasive cloth and neutral detergents for cleaning. Avoid acid detergents, chemicals and solvents.

### *Usage*

It is suitable for interior walls and shower walls.

### *Product inspection and claims*

Being an artistic production, there may be a few minor defects or variations in intensity, composition, tone and brightness of the color. It is recommended to inspect all the material in the sunlight before the installation.
